TRAINING

A major focus of the past membership year has been an increased emphasis on training of our personnel. In 1978 we had 40 EMT-IV Technicians. In 1979 we have 92, plus 15 Paramedics. We have 145 Emergency Medical Technicians. Our medics continue to view in-service training tapes to keep their skills at a peak. We have complemented all this training with several new pieces of emergency medical equipment added to each ambulance.

We renew our pledge to continually combine the most advanced technology, the greatest skills, and the deepest compassion in a program of protection for you and your loved ones.

Acadian Ambulance Service is dedicated to providing emergency medical care of the highest quality. Improvements are continually being undertaken. If you have a suggestion that will make our service more valuable to you and your family, we invite you to mail it to:
