Abbeville Port
Plan Advanced

ABBEVILLE, La.—Plans for the construction of harbor facilities to make Abbeville a port city in the not-too-distant future have been inaugurated, according to the Abbeville Harbor and Terminal District.

J. C. Vorhoff Jr., president of the harbor and terminal board, said his group has been conducting a series of meetings with business interests of the area to encourage support for the plans of harbor construction.

Real estate, boating rental and services, menhaden industry, railway, highway and aeronautics leaders as well as industrial inducement, housing and school system officials are being versed on the harbor construction plans in view of progress expected with the completion of the Freshwater Bayou channel outlet to the Gulf of Mexico.
