Acadiana Medical Lab Design Award-Winner

One of Lafayette's three new medical buildings, the Acadiana Medical Lab, recently won the highest honor in the medical building industry: the Design Award for Excellence in Design. The facility was designed and built by Robert R. Brans and Associates, architects, and was named after the late Acadiana Medical Laboratory director, Dr. Robert R. Brans. The lab is located in the heart of Lafayette, near the Vermilion River. The building is designed to handle the needs of the growing medical community in the area. The lab features state-of-the-art equipment and facilities, including a pathology lab, radiology department, and a conference room. The lab is open 24 hours a day and is equipped with the latest technology to provide top-quality medical services.

Confidence Room - At least 10 med-ical personnel can be accommodated in the right looks out toward a nearby area where medical conferences are held. The conference room is located in the left wing of the building. The building is designed to be an integral part of the community, with a focus on providing excellent medical care to the citizens of Acadiana. The lab is owned and operated by Dr. Robert R. Brans and Associates, which is headquartered in Lafayette. The lab is open 24 hours a day and is equipped with the latest technology to provide top-quality medical services.

Acadiana Medical Laboratories

NEW MEDICAL BUILDING - Acadiana Medical and Laboratory Services is operating one of the newest medical laboratories in the South. Located on the north side of the Vermilion River, the facility has been designed to handle the needs of the growing medical community in the area. The lab features state-of-the-art equipment and facilities, including a pathology lab, radiology department, and a conference room. The lab is open 24 hours a day and is equipped with the latest technology to provide top-quality medical services.
