11

LIVESTOCK EXPORT FACILITY

Air shipment of livestock in multi-engined jet, turbo prop and propeller driven cargo aircraft begins here terminating at international destinations - linking Acadia Regional and its industrial-air park to world trade areas through their airports.

12

872d MEDICAL DETACHMENT - HELICOPTER AMBULANCE

A U. S. Army Reserve Unit, activated and located at Acadia Regional on June 1, 1974 with an authorized strength of 47 personnel, conducts weekend Unit Training Assemblies.
GULF SOUTH RESEARCH INSTITUTE
The Life Sciences Division of G.S.R.I. has its headquarters in the Atchafalaya Basin laboratories in New Iberia. Facilities include 4 buildings, with 85,000 sq. ft. containing offices, laboratories, operating rooms, clinics, animal quarters and a library; 2 buildings with nearly 35,000 sq. ft. for housing primates; and 2 farm buildings which house armadillos.

NEW IBERIA SENIOR HIGH SCHOOL CAREER CAMPUS
The Iberia Parish School Board provides 64 acres and 5 classroom buildings with a staff of 35 to train 872 sophomores, junior and senior high school students in Trades and Industries, Vocational, Business, and Academic fields for job entry after high school or for higher level vocational-technical school training.

IBERIA PARISH SCHOOL BOARD
The administrative headquarters for the entire Parish School System - from this facility at Acadia Regional Airport, the needs of the 15,000+ students and 1300+ personnel are administered and the maintenance of 26 public schools, equipment and land are directed.

TECHE AREA VOCATIONAL TECHNICAL SCHOOL
The 39-acre building(s) site adjacent to the Career Campus and in close proximity to the industrial park - construction to be completed in 1976. The new facility, a post-secondary school operating under the Louisiana State Board of Education, will house 43 personnel, 12 departments, 23 vo-tech training programs, and serve a student population of 1200 in day and evening courses.
Acadiana's Largest Airport

ARA's geographic location is such that many countries are only one flight leg away, making the airport an ideal international take-off and receiving point for overseas air shipments.
