...COMPREHENSIVE MEDICAL TRANSPORTATION
SCOPE OF SERVICE

FAA approved charter jet service and twin engine turbo prop, along with a fully equipped ambulance helicopter, complement the life saving capabilities of the nation’s largest private rural ambulance service.

Based in Lafayette, LA, Acadian Ambulance Service, Inc. provides professional ground and air service to 890,000 residents of a 10,000 square mile area of South Louisiana and the offshore oil industry in the Gulf of Mexico.

Air Med, a division of Acadian Ambulance Service, Inc., combines the experience and training of its medical staff, the sophistication of its support equipment with a superior mode of air medical transportation both domestically and internationally.

MEDICAL STAFFING

Consultation with the family and medical staff relevant to the best method of medical transportation for the patient is made prior to the flight.

Arrangements are made immediately for the selection of the appropriate aircraft, professional medical personnel and any specialized equipment which may be required.

Coordination of ground services at departure and arrival points are handled by our central dispatch center to assure prompt response and minimal delays.

COMPREHENSIVE SERVICE

Whether your Air Med Flight requires twin engine or jet services, it will include the most modern medical equipment in combination with professional courteous patient care. Air transportation is provided by Petroleum Helicopters, Inc., Paul Fournet Air Service, Inc., Charter Jet, Inc. and Pelican Aviation, Inc.
