ACADIANA MEMORIAL, ALUMNI FIELD, STADIUM???

The Stadium—Will It Be Completed For Sept. 12?

By CHARLES L. LENNE

The $2.8 million University of Southern Mississippi Alumni Field—Stadium project is running behind schedule and will be ready well after the scheduled date of completion.

In a recent interview with football coach, Rimmer, he stated, "The complex should be finished by October 15." However, the project is not expected to be completed until October 31.

Dr. Rickey, director of the project, acknowledged that the complex is behind schedule and expressed concern about the project's completion.

Despite the delay, Rickey remains optimistic about the project's completion. He said, "We will do everything possible to complete the project by October 31."

However, Rimmer, the football coach, is less optimistic. He said, "I don't think we will be able to complete the project by October 31."

The project is expected to cost $2.8 million and will be financed through a combination of state funding and private donations.

The complex will include a football stadium with a seating capacity of 20,000, a track and field facility, and a new 8,000-seat arena for basketball.

Despite the delay, the project continues to move forward. The stadium is scheduled to be completed by October 31, and the football season is expected to begin on November 1.

In addition to the football stadium, the project includes a new track and field facility, a new basketball arena, and a new tennis complex.

The project is expected to be completed by late fall, and the football season is scheduled to begin on November 1.
