ARCHAEOLOGICAL SEARCH SEeks Tunica Answers

ANGOLA - Archeologists are at the location of a Tunicavillage. They are searching for evidence of a village that was abandoned there to join the Natchez Indians.

On May 27, 1977, an archeologist from the National Geographic Society will uncover Tunica graves dating back to the 1700s. The site, near Angola, Louisiana, contains the remains of TunicaIndians who are believed to have lived there for centuries.

The TunicaIndians were a group of Native Americans who lived in the Mississippi Delta region. They were known for their skilled craftsmanship, particularly in woodworking and pottery.
