Attracting both tourist and local residents, the colorful azalea trail has been an annual project of the Lafayette Jaycees for over 10 years. The delicate azalea blooms early each spring, flooding the region with flowers in a broad spectrum of various reds, pinks, whites, purples and salmons.

You'll be guided through 15 miles of city streets by numerous signs placed along the trail. Beautiful homes and historical points will add to the pleasures of your journey. Your self-guided tour may begin at any point along the trail.

Welcome to the 1986 Lafayette Jaycee Azalea Trail, may your journey be most memorable.
