Attracting both tourists and local residents, the colorful azalea trail has been an annual project of the Lafayette Jaycees for over 13 years. The delicate azalea blooms early each spring, flooding the region with flowers in a spectrum of various reds, pinks, whites, purples and salmons.

You’ll be guided through 15 miles of city streets by numerous signs placed along the trail. Beautiful homes and historical points will add to the pleasures of your journey. Your self guided tour may begin at any point along the trail.

This year, the Azalea Trail has been expanded to include the scenic Vermilion Bayou with bayou cruises twice daily during the week of the trail.

Welcome to the 1987 Lafayette Jaycee Azalea Trail; may your journey be most memorable.
