**October '88**

**YEAR-TO-DATE '88**

---

**Permits X**

**CONTINUED FROM 1C**

Gardere Lane, Cajun Contractors Inc. is the builder.

Whiteco Industries of Metairie, Ind., was issued two permits valued at $655,600 for an entertainment center, being built by subsidiary Home Entertainment Inc. at 10111 Gwendale, off Airline Dr at Interstate 12. Earlier this year, Whiteco purchased seven acres on the former Catfish Shant building at a cost of $1.09 million to build its estimated $2 million park.

Craig White, a partner in the project, said a conversion of the Catfish Shant into an arcade and restaurant will be completed for a mid-December opening. A "kiddie" go-cart track and "sick" track will open at the same time. A miniature golf course will open at the end of January, followed by the completion of batting cages and a larger go-cart track during February and March. Bumper boats eventually will be built at the facility, White said. W.H. Hopper Construction Co. and Brent J. Courville are builders.

Gastroenterology Associates obtained a permit valued at $722,000 to build a new medical clinic at 1530 Jefferson Hwy. for a June 1 opening. Office manager Lorrie Rigney said the clinic will be expanding its patient services in the new 11,522-square-foot facility. The clinic currently occupies about 4,000 square feet at 5412 Dijon. That building was leased or sold, Rigney said. Town Construction Co. is the builder for the new facility.

Taylor Office Supply will consolidate its business from two buildings at 2167 Beaumont into a renovated building at 9624 Airline Hwy. for a more central location.

Grady Taylor, company president, said the move will result in an expansion of the business, with a greater emphasis on walk-in retail sales and an expansion of its furniture design section. Taylor said the 36-year-old firm had a record year in 1988 and is up by 23 percent this year from last year. He attributed the increase to area chemical plant expansions and improvements among businesses serving that industry. "We're kind of banking on the economy continuing to heat up. I think it's loosening up overall," Taylor said.

Taylor Office Supply occupies about 20,000 square feet at its current location and will have 34,449 square feet at the new facility. The current location may be used as a warehouse, Taylor said. The permit for the Airline site renovation was issued to Balcor Property Management Inc. The permit was valued at $421,650. The builder is Jade of Baton Rouge.

Dynatech Precision Sampling Corp., a subsidiary of Dynatech in Burlington, Mass., was issued a $144,000 permit for a two-story office and production area expansion at 8725 W. El Cajon totaling 10,600 square feet. The firm manufactures automative sampling and liquid handling devices for the petrochemical industry and for environmental use. Salco Construction is the builder.

The Casey Family Program, a Seattle, Wash.-based non-profit organization that places older children from dysfunctional families in foster homes is constructing a 6,235-square-foot office building at 634 Connell's Park Lane. The organization purchased two lots in Connell's Park from Witter Development Co. for $169,000 during December 1988 for the property. Upon completion, the organization will move into a leased building at 635 Kettner, a spokesman said. Harvey Honor Construction is the builder.

Permits associated with new commercial construction or additions or for new offices or retail space included:

- **Holla, Dillenberg, McCown, Breyer, Andrews & Givens**, a law firm, is adding a new office building at the site of the office for doctors’ offices; 1550, 1784-square-foot addition. The firm is expanding its office.
