How shocked I am to know that one of our chiropractors has been arrested for the wonderful attention, care, and results they gave me when I was almost helpless with a sprained back.

I was hurt when I was a child, I'd go to a chiropractor, the adjustments would relieve the pinched nerve and set the vertebrae back in place. It was such a relief. I'm 64 years old. I know if it weren't for chiropractors I'd not be able to hold my job today.

I thank God for having chiropractors. They went to college to study, same as any other doctor. Why can't they get their licenses? Isn't this the land of the free? Dear God, let us cooperate and vote for chiropractors.

Sincerely
Elden Landry
