Blacksmith shop at Acadian Village a historical site

This is a replica of a blacksmith shop built on-site with weather-beaten, aged cypress boards. Also, scattered about are tools that have been the mainstay of farmers throughout the years here in Acadiana.

Make plans to visit Acadian Village during National Historic Preservation Week, May 10-16. Lafayette Lagniappe coupons will admit two persons free during this week only. For more information, call the Lafayette Preservation Commission at 361-8426.
