Bronze Marker
Approved For
Breaux Bridge

A recent resolution presented to the Department of Centennial and
Inn keeping for a bronze marker for
Breaux Bridge has been approved and
will be placed on the grounds
of the new City Hall in the near
future. The request was in the
form of an official resolution by
the City Council and states that
Breaux Bridge has been officially
designated as "The Crawfish Capital of the World." A marker to this effect would be
most fitting. The marker will have a
mission statement and the picture of the crawfish will also
be placed where the town of
Breaux Bridge is located on the
official tribal map of the State
of Louisiana.
