HUB CITY BANK — BROUSSARD BRANCH — The Hub City Bank announces the opening of their Broussard Branch located in the former home of the Alphonse Comeaux family on Main Street. The stately mansion with its graceful balconies, stained glass windows and unique round room with domed roof was constructed in the early 1900's. All social activities in the town of Broussard thrived around the two-story gothic structure. It was considered the center of all limelight functions. The property which was recently owned by the St. Julien family was purchased by Hub City Bank with the idea of preserving the antebellum home and acquiring a branch office at the same time. The bank has recaptured the atmosphere of one of the most romantic eras in American history — that of the old South.
