"Cajun Culture"
In Revival Now

The Seconden of Southwest Louisiana have a long and proud history. Their contributions to our area, the state and the nation are immeasurable. The descendants of the settlers from Nova Scotia have left their mark on every field of human endeavor in Louisiana. It has been five years for the Cajuns to recover from the disasters of the past. The Cajun culture is the unique Americanization of the French country. Cajun emphasis has been on teaching the language to our young ones, and in passing the pride we once held in being bilingual. This is good and worthy of the support of every Louisiana. - A. Thibodaux Sr.
