CAJUNDOME WILL BRING MILLIONS TO LAFAYETTE

But regardless of whether the mayor of council is at fault, we do not intend publicly embarrass any of the nominees. A of the names mentioned have at one time another served this community well a dedicated hours of public service for compensation. They do not deserve any less than the utmost of respect from the community.

And on the issue of the Cajundome, continues to amaze us that the administration and some members of the Council can’t see the forest for the trees.

The Cajundome is going to be an outstanding facility for this community and will be responsible for bringing in millions of dollars here. It seems very myopic for anyone to be wringing their hands about spending half a million dollars on a facility which will probably bring in $10 million in revenues.

We believe getting the Cajundome is one of the best things that has ever happened to this community and that we should start acting like it.
