Conclusions Of Legislative Committee
Printed In Full

(Employee's Note: Following is the complete conclusion of the committee as reported to the Legislature.)

The Committee's general mandate from the Legislature plus the specific mandate which the CPAUL had been given are set forth at the beginning of this Report.

The evidence presented to the Committee clearly demonstrates a most unfortunate situation existing in the country as a whole.

The United States Congress, through the medium of the civil rights legislation previously printed in the Congressional Record, has been well demonstrated in the testimony of Mr. Robert Anger. He advocates a Communist viewpoint.

The Committee is greatly strengthened in the testimony of Mr. Joseph Henry, the member of the Business Committee which has demonstrated its activism in the state. The State and County legislatures have recently been implicated in a Communist front, identified as the CPUSA and named in the testimony by the Communist.
