Jobs For Acadiaans
In EDD's Prime Thrust

One of the largest economic development projects in recent months is associated with the Acadia Regional Airport, located just outside of Kibbee, Louisiana.

The airport has been designated as one of the country's most promising airports and is expected to attract national attention in the near future. This designation is due to the ongoing efforts of local officials to improve and expand the airport's facilities.

The project is expected to create over 1,000 jobs and generate millions of dollars in revenue for the local economy.

Human Resources

The airport's development is expected to boost the local economy and create new job opportunities for residents. With the expansion of the airport and the creation of new jobs, the area's economic future looks bright.

Community Action Agencies of the Region

Human Resources Development

The human resources development program is designed to provide training and employment opportunities for local residents. The program offers a variety of services, including job placement assistance, career counseling, and skill development programs.

Tourism

The area is known for its beautiful natural scenery and outdoor activities, including fishing, hunting, and hiking. The region is also home to several historic sites and attractions that draw visitors from around the world.

The Chamber of Commerce is actively working to promote the area as a tourist destination and is working with local businesses to create new attractions and events.

For more information about the human resources development program and the Chamber of Commerce, visit their websites or contact them directly.
