TAX COLLECTION
BILLS ADVANCE
Will Provide Funds for
Teacher Raises
BATON ROUGE, La. (AP) — The Senate Finance Committee Tuesday cleared a package of administration bills to advance tax collections to provide funds for full implementation of a teacher pay raise.

The bills would bring an additional $18.5 million during the 1971-72 fiscal year, but would not provide any increased revenues in the following years.

It would allow full implementation of the final year of a fourth year of the pay plan.

Revenue Collector Lee Ager- ton conceded the increase would be a "one time deal," leaving the next administration the job of trying to find funds to continue full implementation of the fourth-year of the pay plan.

While approving the package, the Finance Committee defeated two bills to move the filing of individual income tax returns and corporation franchise tax returns from May 15 to April 15.

The two measures were killed after Ager- ton said they would not bring any additional funds and had no bearing on the package linked to the teacher pay raise.

One of the bills would advance the dates for individuals to file estimated income tax returns. Another would require large employers to remit withholding taxes on a monthly instead of a quarterly basis. Another would require corporations to file estimated taxes on a quarterly instead of an annual basis.
