Food Irradiation: Half life or shelf life?

Irradiator enters food industry, a potential boon to the nation’s food supply, as well as a controversial one.

**Nuclear Technology for Food**

Batch beam gamma irradiation
- 18 Mev
- 10 Mev
- 3 Mev
- 25 Mev

Industrial sources
- Americium 241
- Caesium 137
- Curium 241

Radioactive gas sources
- Neon 22
- Argon 40
- Iodine 131

Irradiator chamber
- 80” x 120” x 20”
- 120” x 120” x 20”
- 120” x 120” x 30”

Growing list of foods approved
- Dehydrated meats
- Spices
- Beverages
- Pickles
- Salad dressings
- Fish
- Catsup
- Sugar
- Milk

IrradiationCONTINUED FROM 1B

Louisiana sealed and is waiting for the federal government to approve the process.

“I have been told by the Mississippi River Shipping Co. that this shipment is for them,” said a spokesman for the company.

Six Irradiation plants operate in the state, according to the spokesman.

The spokesman said that the plant is located near the Mississippi River.
