Key Acadiana Bills Approved

By D.W. Kaminski
Assistant City Editor

The industrial development legislation came to the attention of the Industrial Development Committee of the Greater Lafayette Chamber of Commerce when it decided to form an Industrial Development Committee here modeled on a highly successful board having impacts in Harrison County, Mississippi. Local legislators amended a 1962 act which created a four-year period in Lafayette Parish to make it a port of entry to industrial development powers. The chamber and other civic and governmental leaders have expressed interest in a proposal to establish an Industrial Development Corporation.
