What Is the Louisiana Consumers League?
The Louisiana Consumers League was founded in 1968 by citizens committed to strengthening the legislative, regulatory, and marketplace rights of all citizens in Louisiana. The key to the Consumers League's success is educating and organizing citizens to respond to crucial public policies. The Consumers League is dedicated to working with consumers to ensure a safe and fair marketplace.

The Consumers League was created for and supported by individual consumers throughout the state.

Our Commitment:
The Consumers League focuses on issues and problems that affect all of us – our health, our safety, and our pocketbooks. We present the consumers' viewpoint at the Public Service Commission to challenge telephone service rate increases. We represent consumers' interests at the state legislature to promote and protect the needs of the individual consumer. We are available to you in the marketplace with information and referral services which help you with problems and questions.

Your Opportunity:
Only your voice can make the difference to move your elected officials toward the public interest and away from well-funded, special-interest lobbies.

Your voice with and your contribution to the Louisiana Consumers League enables us to take on critical consumer issues and to win victories for consumers in Louisiana. The Louisiana Consumers League is the support and work of individual citizens like yourself.
