SEEK OFFICIAL COASTLINE—Louisiana is taking legal action Monday asking the U.S. Supreme Court to declare the broken line on the map above as the official coastline of Louisiana. The line represents the outer limit of inland waters established by Congress and the Louisiana Legislature and recognized by the U.S. Coast Guard and other federal agencies as Louisiana's coastline. If the line is approved by the high court, the state would have title to tidelands out to a line three miles south of the official coastline. The unbroken line on the map above represents the three-league boundary which the Supreme Court has refused to grant Louisiana.
