Officials convene to talk 'French'

Superintendents of regional parish school boards convened recently at La Maison-Acadienne Francaise on the USL campus to discuss plans for a cooperative project between USL and regional parish school boards to expand the program of French instruction in the schools.

The proposal for a cooperative project between USL and area elementary and high schools to expand the program of French instruction grew out of talks between a delegation of officials from the Canadian province of Quebec, who were in Lafayette in December.
