that the "Southern Conference Educational Fund" is a Communist front.

ALL THESE OUTFITS, Dear Reader, have been active in the South Louisiana area in general and the New Orleans area in particular. Put them down in your little black book and underline them in Red. If you know anything about any of them pick up the phone and promptly notify city, parish, state and federal law enforcement officials.

LET'S BROAD BRUSH the legislative committee's report on the Spartacist League today and get into some of the gory details Sunday. A perusal of the exhibits contained in the report will give you the story in a nutshell.

REVOLUTIONARY PROGRAMES of the Spartacist League written by James Robertson, the national chairman, is printed in the book. It is titled "Black And Red Class Struggle To Negroid Freedom." One little excerpt from this bit of trash gives you the thrust: "... At present U.S. capitalism is attempting to maintain and increase its profits by placing the cost of the Vietnam War on the working class."

"THE RIOTS And The Spartacists" is another exhibit. This is an article claiming credit for Spartacist League leadership in the 1965 Chicago riots. There is a cartoon depicting the straight Communist line about police brutality with this one.

A HANDBILL was issued on a "Discussion Series" held by the Spartacist League in New Orleans called "The American Communist Movement." On the discussion schedule were such social tidbits as "The Background Of American Radicalism" and "The Birth Of American Trotskyism."

THE TEACHER STRIKE in New Orleans gave the Spartacist cell an opportunity for exploitation and infiltration. The SL distributed a handbill that urged "Keep the strike going! Tax big businesses, not the people!"

INTERNATIONAL AFFAIRS, like the Dominican Republic incident and the Cuban issue, also caused the Spartacist presses to roll out an anti-American line.

HURRICANE BETSY victims were also the targets of another effort by the Communist organization.
