Public Service Rendered Lafayette By A Committee

A public service of long range importance to the people of Lafayette Parish has been rendered by a special advisory committee headed by Mrs. W. B. Spell as chairman.

This group, working with the county agent's office, has made a professional analysis of family and housing needs, money management and the problems that face farmers, livestock growers and dairymen.

The advisory committee was broken down into special subcommittees in order to make a careful survey of each particular area of interest. Members not only stated the problems that they found but came up with overall recommended solutions.

Basic objective of the committee is to assist Lafayette Cooperative Extension agents in developing an expanded program in agricultural production, marketing distribution and utilization, home economics and 4-H club projects.

The Daily Advertiser printed the details in the editions of Sept. 2 and Sept. 9 and readers are encouraged to check out their own areas of interest.

Serving with Mrs. Spell in this analytical study were Mesdames Eva Loup, Margaret Varisco, Maxie Broussard, Harold Prejean, E. E. Walter, Lauella Anderson, Inez Prejean, Jeanne Greene, Paul Green, Rose M. Broussard, Rose Williams, Faye Guidry, Sarah Gercke, Ray B. Theaux and Miss Eloise Patin.

Their fellow citizens in Lafayette Parish are deep in the debt of these fine committee members for their exhaustive work and extend to them every good wish in this worthwhile endeavor.
