BUS DRIVERS INSTRUCTED—Three new drivers for the Lafayette Transit Co. hear a talk on safe driving by John Ringel, (right), safety engineer, at a dinner meeting at the Oak Grove Friday night. The three were among 14 drivers at the meeting. They were given special instruction because they had had less than three months experience. Ringel said the firm’s drivers had driven two million miles in eight years and had an excellent safety record. “Keeping it will depend largely on you men,” said Ringel. The three drivers are (left to right) Valex Guilbeau, Paul Gauthier and Paul Credeur.
