Baton Rouge

Baton Rouge has long played a vital role in the State of Louisiana's economy. From its early days as a hub for trade and transportation, the city has grown to become a major cultural and economic center. Today, Baton Rouge is home to several major industries, including petrochemical, aerospace, and healthcare.

The city's economy is diversified, with a strong focus on high-tech industries and manufacturing. Major employers include Dupont, Honeywell, and the Louisiana Office for Homeland Security. The city is also home to several universities, including Louisiana State University, which contributes to the local economy through research and development.

Baton Rouge has a robust transportation network, with access to major highways and air routes. The city is served by the Baton Rouge Metropolitan Airport, which provides direct flights to major cities across the country.

In conclusion, Baton Rouge's economy is strong and diverse, with a focus on innovation and growth. The city's strategic location, excellent transportation infrastructure, and highly educated workforce make it an attractive location for businesses and individuals alike.
PARISH ATTORNEY

When legal documents involving the City or Parish are required, they are prepared by the Parish Attorney's Office. This office also prepares all resolutions and ordinances promulgated by the Council and the Parish Council. The Parish Attorney is in legal advice to the Mayor-President, the Council and various administrative departments.

DISTRICT COURT

Over the past ten years, our district courts have had to face new and severe cases and the population grows and crime increases. Often temporary judges are assigned to special juries to help the overworked judges. Because Parish Government is the Capital, all cases involving the State of Louisiana are heard in the 12th Judicial District, which consists of the St. John the Baptist Parish and the St. Charles Parish. The Parish Attorney is the Judge of the 12th Judicial District Court in the Parish of Lafourche.

CLERK OF COURT

Clerk of Court - Perry M. Johnson

"The Ten Years from 1931 to 1941 saw tremendous growth and considerable progress toward improving the records and services of the Clerk of Court Office. Since Perry M. Johnson, clerk of court, "Prior to the beginning of that period the records of the office were inadequate and brittle, and the room where they were kept wore impression of the entire office."

In 1936 we installed a modern punched card system for keeping the books and a photostatic system for reproducing the original documents into the record books."

This process involved re-shuffling the records from 1932 through 1936 and producing a punched card index for the years and this is up on the present day." "This considerable expansion of punched card indexing and processing of vital records has increased the efficiency of the office and has resulted in a considerable saving of time and effort in handling the records.""The new punched card system is now in use in the Clerk of Court's Office and has resulted in a considerable saving of time and effort in handling the records.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office.""The new punched card system is now in use in the Clerk of Court's Office."

PERSONNEL

Our 1,500 people are employed by our Parish Government, performing some 60 or more different services in the classification of various positions. For the Parish Government is a special organization where a uniformed employee assumes similar duties under a special office for some time of service.

Pension benefits are also important part in making the governmental job a type of job that is sought and kept for a long time. The Parish Government in this Parish requires some constantly improved working conditions for its employees.
TEN YEARS of PROGRESS

Arching over streets that run down to the river, the Inter-State Thruway zips traffic along parallel to the river.

In addition to the excellent job done by our Department of Public Works, Federal and State projects, such as those shown in these pictures, add bridges, roads and highway systems to a growing, well-planned traffic program.

Unwinding traffic just north of the downtown area, the Inter State Highway System passes the State Capital across Capital Lake.

Bold structure for bridge across City Park Lake, taking Inter State Highway across the City.

Inter State Highway, moving beyond City Park Lake to join Airline Highway.
