WILL MAKE PLANS TO PROTEST HIGH GINNING CHARGES AND LOW PRICES FOR COTTON SEED

Will be Held in Parish Court House Next Wednesday Night

TO OBSERVE MUSTER DAY

Farmers and Business Men of Parish Invited to Attend Meeting

A parish-wide meeting of Lafayette parish cotton growers for the purpose of making definite plans to protest the high ginning charges and the extremely low price of cotton seed has been called for Wednesday night, September 9, at 7:30 o'clock, in the parish court house here.

Plans for the meeting were made at a meeting here Saturday of the Lafayette Parish Farm Bureau, which was attended by several cotton growers of the parish.

At that meeting plans were also made to join in the nationwide observance of Muster Day during this month. A program to observe this day will be held here Thursday and August 17, at 7:30 o'clock at the court house here according to Secretary Fiero of the Lafayette Parish Farm Bureau.

All farmers of Lafayette parish and business men of the city and parish are invited to participate in both meetings, but a special appeal is being made, during the week, to cotton growers to attend next Wednesday's meeting to discuss plans to protest the high ginning charges and the low price of cotton, which it was announced by the Farm Bureau office here.

Muster Day

Chicago, (Special) — That the Lafayette Farm Bureau, Lafayette, Louisiana, will join with thousands of other organized farm groups in a gigantic, nationwide observation of Muster Day during the month of September was announced here today by M. S. Winder, Executive Secretary of the American Farm Bureau Federation.

Mr. Winder made the announcement immediately upon receipt of an enrollment card from Ray Fiero, Secretary, who manages that at least one Muster Day program will be conducted in Lafayette parish under the leadership of the Farm Bureau.

"We are inviting every farmer in Lafayette parish to participate in the series of Muster Day programs to be conducted in this parish," Mr. Fiero advised the communal Farm Bureau officials.

"We believe that Muster Day offers the excellent opportunity for our farmers to put together as proof of their faith in organized agriculture.

Nation Wide

The nationwide mobilization of farmers is being led by the American Farm Bureau Federation as a result of a similar Muster Day observation last year, in which more than 1,250,000 members of the 1,837 county Farm Bureaus comprising the American Farm Bureau Federation participated in "isolated farming sections to huge, county-wide mobilizations in communities where farmers are members of the Farm Bureau.

Farmers in every community will be invited to muster in official proclamation, by state and county Farm Bureau officials.

Last year the initial nationwide observance of Muster Day by county and state Farm Bureau was declared to be one of the most dramatic demonstrations of strength in the agricultural movement of all times.

"National leaders of the American Farm Bureau Federation are confident that this year Muster Day will be more impressive from a national viewpoint," Mr. Winder said.

(City name), (Sept. 29) — That the first plan for the national Farm Bureau to reaffirm their faith and allegiance and for non-members to join with their neighbors in this great crusade," he said.

Mr. Winder further explained that all of the 1,837 county Farm Bureaus comprising the American Farm Bureau Federation will be supplied with definite Muster Day programs, so that the event, though nationwide in scope, will be in entire uniformity, from the smallest farming sections to huge, county-wide mobilizations in communities where farmers are members of the Farm Bureau.
