Format For Submitting A Family Connections Unit

Each Family Connections unit will be designed per the following format:

1st line - father's last name, followed by first, nick (optional), middle and the mother's first, nick (optional), middle, maiden, and married name.

2nd line - children's names in order of oldest to youngest, with boys' names (first, nick, middle, last) and girl's names (first, middle, nick, maiden, married).

3rd line - (optional) with deaths, divorces, second marriages, etc., a clarification statement may be made here regarding the 1st line.

4th line - (optional) brief identification of the area/s where the Family Connection unit resided in the Evergreen area.

5th line - Source - the name of the person submitting the information.

One-time residents are requested to send their Family Connections in accordance with the information below.

One of the goals of the Family Connections Page is to show relationships of relatives - by both blood and marriage.

Genealogical purposes may be served by this page, but this is not the intent of the page. Sources will be provided at a later date for those who wish genealogical information.

Each Family Connections unit will contain only two generations, parents and children. Once a person starts their family, an additional Family Connections for that person can be posted.

Family Connections should go back in time to the original settlers in the Evergreen area. It is incumbent upon each person to send their Family Connections so others may know, understand and appreciate the various Family Connections which existed in the past, as well as those families who currently reside in the Evergreen area.

Although one has moved away from the Evergreen area, their Family Connections are still part of the Evergreen fabric and their Family Connections are needed and welcomed. At least one person in each Family Connection unit should have resided in the Evergreen area at some time.

To send your Family Connections, click here Ed@EvergreenLa.org
