Introduction: The Education Page is designed to provide historical information about the formal education opportunities which once existed in the Evergreen area. The contents of the Education page will not be limited to the above institute, college, and schools. It will also include information about other schools which existed prior to the integration of schools in the area. Information about former faculty and staff of all the schools, along with listings of the classes will be developed. School pictures will be posted in the Education Page of the Photo Gallery. Pelicans and others will be called upon to provide some of the essential information.
